# Fonds Description

**Campus and Community Planning fonds.** – 1925-2006.

7.10 m of textual records.

2589 photographs.

## **Administrative History**

The Office of Physical Plant was established in 1967, to assume the responsibilities of engineering, maintenance, and planning of buildings and grounds on the University campus. Previously, these had been the responsibility of the Superintendent of Buildings and Grounds. In 1969, the Office of Physical Plant was organized into four different divisions: Operations and Maintenance, Design and Planning, New Construction, and Administrative Services. In 1986, the Office of Physical Plant was reorganized into two different departments: Plant Operations and Plant Design and Construction. Plant Operations and Plant Design and Control were wholly separated in 1988. Plant Design and Control was renamed Physical Planning (created in 1979) merged with Physical Planning and Development and responsibility for the design of new campus buildings. As well as planning and allocation of office, classroom and storage space was transferred from the Office of Budget and Planning. This new department was renamed as Campus Planning and Development in 1989 and again renamed as Campus and Community Planning in late 2001.

## **Scope and Content**

The fonds consists of feasibility studies, proposals, functional programs, reports, plans, proposals, lists, drawings, estimates, briefs, design guidelines and agreements generated by Campus and Community Planning between 1959 and 2006. It is arranged into the following six series: Proposals (1959-2006); Agreements (1967-1971, 1994); Projects Status Reports (1981-1983); Building Costs Analysis (1969-1986); Miscellaneous (ca. 1968-1997) and photographic images (1925, 1983, 1991-1996). The fonds also contains the Department of Facilities Planning Sous-fonds (1967-1983).

## **Notes**

Fonds consists of institutional records – access requests must be reviewed by the University's FOIPOP Coordinator.

Originally known as the Campus Planning and Development fonds.

File list available.

Selected photographs have been digitized and included in UBC Archives' [Historical Photograph Database](#), listed under Campus and Community Planning fonds (UBC 106.1).

Some entries in the file list include the relevant building or facility number.

Records dealing with campus planning and development may also be found in the fonds of the [Office of Budget and Planning](#), [Office of Institutional Analysis and Planning](#), and [Office of Physical Plant](#).

## Series Descriptions

**Proposals series.** – 1959-2006.

6.33 m of textual material.

698 photographs : 35mm slides.

Series consists of detailed studies of the requirements of academic programs for new facilities, proposals for the construction of new buildings or the renovation of existing facilities, feasibility studies for new or proposed University facilities, space and equipment needs of the departments and buildings concerned, design guidelines, and various reports. Three of the files have attached folders with slides.

Series arranged in chronological order. Undated materials are arranged in alphabetical order in Box 9 (18-24). Oversize reports in Box 10, 16, 17 and 23.

Boxes 1-9 (24), 10, 12-15(7), 16, 17, 18-22, 23..

**Agreements series.** – 1967-1971, 1994.

7.5 cm of textual material.

Series consists of agreements between UBC and the companies awarded projects for the construction of various campus buildings and facilities.

Series arranged in chronological order.

Boxes 9 (25-29), 15(8-9).

**Projects Status Reports series.** – 1981-1983.

18 cm of textual material.

Series consists of reports by the Department of Physical Plant regarding major and minor buildings in construction and its costs, project schedules and current status of projects at the time of reporting.

Series arranged in chronological order.

Box 11 (1-10)

**Building Costs Analysis series.** – 1969-1986.

6 cm of textual material.

Series consists of reports containing information on building costs, date contracts were awarded and other financial data.

Series arranged in chronological order.

Box 11 (11-14).

**Miscellaneous series.** -- ca. 1968-1997.

10 cm of textual material.

Series consists of file manual, climatology reports, library reports, UCBC correspondence, a strategic plan to implement the mission of UBC, and organizational charts.

Series arranged in chronological order.

Boxes 11 (15-20), 15(10-12).

**Photographic Images series.** – 1925, 1983, predominant : 1991-1996.

207 35 mm slides.

14 photographs.

Series consists of slides and photographs of UBC buildings predominantly from the 1990s.

Selected photographs have been digitized and included in UBC Archives' [Historical Photograph Database](#), listed under Campus and Community Planning fonds ([UBC 106.1](#)).

## **Sous-fonds Description**

**Department of Facilities Planning Sous-fonds. – 1967-1989.**

32.5 cm of textual records.

1670 photographs : 35mm slides.

### **Administrative History**

The Department of Facilities Planning was created in 1979 in response to growing concerns over campus development. Since then a new campus plan has been approved by the Board of Governors and many related planning and urban design studies have been prepared and implemented. The Department was responsible for maintenance of the campus, planning activities and the creation and development of major capital projects through the use of facility planning studies, design development drawings and the writing of functional programs. The Department merged with Physical Planning and Development in 1988.

### **Scope and Content**

Fonds consists of feasibility studies, functional programs, proposals and plans of the campus (1970-1982). They are arranged in five series: UBC Facilities (1969-1982), Feasibility Studies (1967-1980), Functional Programs (1978-1979), Proposals (1979-1983), and Slides. Many materials actually pre-date the creation of the Department. Two oversize items are stored separately.

### **Note**

Originally known as the Department of Facilities Planning fonds. Incorporated into the Campus and Community Planning fonds in 2013.

## Sous-fonds Series Descriptions

**UBC Facilities series.** – 1969-1982.

21 cm.

Series consists of bound reports on existing University facilities, and manuals for designing graphics and signs. One oversize item is stored separately.

**Feasibility Studies series.** – 1967-1980.

2.5 cm.

Series consists of feasibility studies for new or proposed University facilities.

**Functional Programs series.** – 1978-1979.

2 cm.

Series consists of detailed studies of the requirements of academic programs for new facilities.

**Proposals series.** – 1979-1983.

7 cm.

Series consists of proposals for the construction of new buildings or the renovation of existing facilities. One oversize item is stored separately.

**Slides series.** – [ca. 1970-1989].

1670 photographs : 35mm slides.

Series consists of photographs of buildings, models, and drawings, showing various views of campus buildings and planning documents. Selected images have been described individually and are listed under [UBC 105.1](#) in the [historical photograph database](#).
