Dr. R. W. Seaton,  
Associate Professor  
Office of Academic Planning  
U.B.C.

Dear Dr. Seaton,

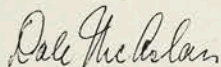

A.U.C.E. (Local #1) is concerned about the lack of staff representation on the design committees for new buildings on campus. Perhaps you would outline the structure of the existing committees for our information, and offer suggestions for fair staff representation.

I understand that, at present, there is no procedure for the consultation of staff members on plans for renovations which may affect the interior design of our working areas. Could you also offer some comment on this matter?

We would be pleased to hear and discuss your recommendations; and if you feel it is appropriate, perhaps we could have a mutually acceptable procedure for staff consultation and representation outlined in the University Procedures Manual.

Thank you for your help.

Yours truly,
