# Fonds Description

**Department of Mechanical Engineering fonds. - 1969-1994.**

2.62 m of graphic and textual material.

## **Administrative History**

The University of British Columbia's Department of Mechanical Engineering traces its origins back to 1908 and the applied science courses offered by the institution's predecessor, McGill University College of B.C. When the University of British Columbia opened its doors in 1915 it included a Department of Mechanical Engineering as part of the College of Applied Science. However, the department consisted of only Lawrence Killam and several shop demonstrators but lacked any full professors or a department head. From these humble beginnings the department has become a leading teaching and researching unit within the University and its engineering graduates have made important contributions to the development of British Columbia and beyond

## **Scope and Content**

Fonds consists primarily of photographic material (including: black and white and colour photographs and negatives, and colour slides) as well as, pen and ink sketches and textual material. The textual material which spans intermittently between 1976 and 1994, includes reports, work orders, memoranda, drawings and blueprints. The bulk of this material primarily concerns itself with two areas of Departmental activity: teaching and machining; however, other areas to offer representation include the Engineering Undergraduate Society, the Departments photographic unit and faculty research.

## **Notes**

Fonds consists of institutional records – access requests must be reviewed by the University's FOIPOP Coordinator.

Title based upon content of the fonds.

Includes: 14.5 cm. of textual material, ca. 2,589 photographs, ca. 6,589 negatives and 360 slides.

Transferred from the Department of Mechanical Engineering July 4, 2000.

Item level graphics inventory and file list available.

For additional information on the history of the Department see Eric Damer, *Discovery by Design: The Department of Mechanical Engineering of the University of British Columbia - Origins and History: 1907-2001* (2002).

## Series Descriptions

**Photographic Material series.** - 1969-1986, 1994.

ca. 2,589 photographs: b&w and col.

360 slides: col.

ca. 6,589 negatives: b&w and col.

The Photographic Material series contains a large number of prints and negatives in both black and white and colour, as well as, a small amount of colour slides. These images document the structural development of the Civil and Mechanical Engineering Building as well as, presenting images of their original facilities on campus. Also finding photographic representation in this series are various student exhibits, events and research projects; departmental projects; faculty, staff and student composites and portraits; technological installations; student awards and competitions; social and intercollegiate events; class notes and visual aids; and press shots. As well, the photographic material presents different perspectives of student involvement both within the Department itself, and as part of the University as a whole. Finally, the images, along with the few accompanying pen and ink layout sketches, depict the process of photography itself within the Department.

The majority of photographs were found in a chronologically and numerically organized state located either within the envelopes of their corresponding negatives or else in sticky back photo albums. Those not housed in such a way were found loosely contained among the textual material within metal filing cabinets or cardboard boxes. The first 644 sets of photographic prints were found to have numerical identifiers (written in ink or pencil and located either on the print itself, the original envelope in which it was found or beneath or above its placement within sticky back albums). These numerical identifiers correspond directly to available negatives. The slides were found labeled in a topically organized state within plastic sleeves housed within ring binders.

Original numerical identifiers of both photographs and negatives span sequentially from #41 to #730.

Photographs and Negatives: UBC 43.1/1-UBC 43.1-695

Slides: UBC 43.1/664-UBC 43.1/674

**Reports series.** - 1976, 1978.

3 folders.

The Reports series consists of class assignments completed by students and submitted for credit towards Mechanical Engineering 472.

**Work Orders series.** - 1980-1984, 1989, 1991.

29 folders.

The Work Orders series consists completed request forms, blueprints and sketches for work to be completed by the technicians within the Mechanical Engineering Shops.

**Student Activities series.** - 1975.

1 folder.

The Student Activities series consists of a singular report on the summer activities of the E.U.S (Engineering Undergraduate Society) Electric Vehicle Project.

**Historical Material series.** - 1977.

2 folders.

Series consists of textual material relating to the historical development and significant technological accomplishments of the Department of Mechanical Engineering. Types of materials found in this series include a newspaper clipping and an opening ceremonies program.

**Miscellaneous series.** - 1977-1983, 1994.

2 folders.

Series consists of miscellaneous textual materials. Types of materials found in this series include Departmental memorandum regarding photography, and oceanography probe drawings.

# File List

## Box 1

### "Reports"

- 1-1 "Engine Health Monitoring of Machinery Using Vibration Analysis" by Ron Hamm and Assa Manhas, 20 April 1976: ME 472 Project.
- 1-2 "ME 472: Selsyn Controlled Photoelastic Bench" by Steve Pither, 28 April 1978.
- 1-3 "ME 472: Selsyn Controlled Photoelastic Bench" by Steve Pither, 10 April 1978.

### "Work Orders"

- 1-4 Request for Work from Mechanical Engineering Shops Completed Forms, 1983-84.
- 1-5 "Hauptmann: Work Order #351", 1982-83.
- 1-6/9 "W.O. #338: Mirror Traverse Assy. Ken Das / Dr. Evans, June 1989" blueprints [A] to [D]
- 1-10,11 "Hutton: Bandsaw Facility", 1980-81; 1991. [A]
- 1-12/31 "Hutton: Bandsaw Facility", 1980-81; 1991 blueprints [C] to [V]

## Box 2

- 2-1 Miscellaneous Drawings for Shop Work Orders (?) 1981-82.

### "Student Activities"

- 2-2 Electric Vehicle Project: Report on Summer Activities, May 1 - Sept. 15, 1975.

### "Historical Materials"

- 2-3 "The Wally Wagon" newspaper clipping.
- 2-4 Opening of Civil/Mech. Eng. 12 May 1977. Ceremonies Programme.

"Miscellaneous"

- 2-5 Oceanography Probe Drawings (2 of 4/78) Gartshore (Vasanji) 1978, 1981, 1983.
- 2-6 M/E Departmental Memorandum re: Photo Gallery Picture Taking, Sept. 1994.

[see UBC 43.1/675-1 to UBC 43.1/675-34 for related materials]
