Summary information

Repository:	University of British Columbia Library Rare Books and Special Collections
Title:	Federation of Mountain Clubs of British Columbia fonds
Reference code:	RBSC-ARC-1822
Date:	1971-2018 (date of creation)
Physical description:	7.38 m of textual records and other material
Language:	English
Dates of creation, revision and deletion:	Claire Williams arranged and described this fonds in Spring/Summer of 2021.

Administrative history / Biographical sketch

Note

The Federation of Mountain Clubs of British Columbia was initially established in 1962 as the Mountain Access Society. In 1972 the organization incorporated under the Society Act as the Federation of Mountain Clubs of British Columbia (FMCBC).

The FMCBC acts as umbrella organization representing the needs and interests of outdoor clubs dedicated to protecting and maintaining self-propelled, non-motorized access to British Columbia's backcountry. The organization's main functions include supporting member clubs, trail maintenance and trail building, public outdoor educational programming, and advocacy efforts in support of preserving and maintaining access to the backcountry. In addition, the organization publishes educational materials on backcountry access and, in 1987, purchased several parcels of land in Squamish, British Columbia, to hold in trust for the use of the rock-climbing community.

In 2003 the educational programming arm of the FMCBC, known as the Canada West Mountain School (CWMS) was sold by the organization to a private owner, who still operates the school today. In 2012, the FMCBC began a grant program for the benefit of member clubs within the organization. In 2018, the organization significantly revised its bylaws and reduced its Board of Directors. The current board consists of a President, Treasurer, Secretary, and five Directors from various member clubs. The FMCBC is a member of the Outdoor Recreation Council of British Columbia, Leave No Trace Canada, and the Canadian Avalanche Association.

Custodial history

The Federation of Mountain Clubs of British Columbia held custody of the materials from the date of creation until donation to Rare Books and Special Collections in the winter of 2019.

Scope and content

Volunteer members and elected directors of the Federation of Mountain Clubs of British Columbia (FMCBC) created and kept records as part of their work carrying out the Federation's major mandate: organizing mountain clubs from throughout the province of British Columbia to represent collective interests for self-propelled access to wilderness areas.

Ranging in date from the 1970's to ca. 2018, records in the fonds document the FMCBC's major activities in support of their mandate: administrative and executive activities, the creation of various committees and work undertaken by these committees, advocacy for various lands and parks throughout the province to be considered and maintained for public access, and educating and communicating to both members and the public on topics of relevant interest.

While the FMCBC as an organizational body created the majority of these records, some records in the fonds were created by related organizations, such as the British Columbia Mountaineering Club, governmental committees, or natural resource extraction companies. The majority of records within the fonds are textual, though some other record types are present, including maps, photographs and ephemera. The fonds contains the following series: Administrative and Executive series, Committees Series, Lands and Parks series, and Education and Communication series.

Notes

Title notes

- **Source of title proper:** Title based on the contents of the fonds.

Physical condition

Materials are in generally very good condition. Some textual records are permanently folded but still legible. Many cartographic records are permanently folded and should be handled with care. Some records also contained rusted inorganic material (e.g. staples and paperclips) which have been removed by the archivist. Many staples and paperclips inevitably remain, and should be removed in the future for preservation.

Immediate source of acquisition

All records were acquired directly from the Federation of Mountain Clubs of British Columbia.

Arrangement

Where established, the archivist has attempted to preserve the original order and file titles of the records. Some loose files, records in disarray, and unnamed files have been rearranged and described according to the series structure indicated above. Many records were arranged according to a legacy filing system, available in box-file 25-05 (1 of 2). Where present, the archivist has documented the

filing conventions as they appeared on individual boxes and files upon donation, these numbers are indicated as 'alpha-numeric designations' in the notes field for individual files.

Conditions governing use

Some records in the fonds are still protected under copyright.

Finding aids

The finding aid for this fonds is available in this database.

Other notes

- **Publication status:** published
- **Physical description:** Cartographic materials stored with textual records have not been fully described. Where present, the archivist indicated the presence of cartographic materials through the 'General Notes' field, with a note: 'Contains map(s)'. Future work includes full physical description of all cartographic materials in the fonds.
- **Physical description:** Includes 32 photographs, 2 posters, 1 sticker and 1 statuette.
- **Conservation:** The archivist has attempted to remove all rusting inorganic materials from the fonds, but some undoubtedly remain.
- **Conservation:** Many cartographic materials remain folded and stored with the textual records. Future work includes a review of these materials to determine proper long-term rehousing solutions.

Series descriptions

Administrative and Executive

Date: 1971-2007 (date of creation)

Scope and content:

Records in this series document the administrative and executive activities of the FMCBC. Major record types include agendas and minutes, handbooks and training materials, annual reports, financial documents, newspaper clippings, and brochures and pamphlets. Executive and administrative activities

included training new directors for service on the board, holding annual general meetings and forums, planning, correspondence, policy creation, and fundraising.

Physical description: 1.52 metres of textual records.

Committees

Date: 1972-2005 (date of creation)

Scope and content:

Records in this series were generated through the work of the major committees of the FMCBC including the Smoke Bluffs Committee, the Safety Committee, the Research Committee, the Trails Committee, and the Recreation and Conservation Committee. Of these, the latter two are most well represented in the series. Information about the Smoke Bluffs land parcel is also available in the Lands and Parks series. Major record types include meeting agendas and minutes, correspondence, and brochures, though other records, such as news clippings, photographs, and maps are present in the series as well.

Lands and Parks

Date: 1971-2007 (date of creation)

Scope and content:

By far the most robust series in the fonds, the Lands and Parks series contains records related to the FMCBC's efforts to advocate for the creation and maintenance of wilderness areas for public recreational use. Much of this work took place through larger provincial efforts, and records related to the FMCBC's representation on the Public Advisory Committee (PAC), and the Protected Areas Strategy (PAS), as it relates to the province and specific geographic areas and parks. The series also contains external publications related to various parks and wilderness areas. Many records and files are organized geographically, by park or region name. Record types consist primarily of published reports, correspondence, informational materials and cartographic materials.

Physical description: 4.45 metres of textual records and other material.

Publication status:

published

Physical description:

Includes 30 photographs, and 2 posters

Education and Communication

Date: 1974-2018 (date of creation)

Scope and content:

Records in this series document the FMCBC's efforts to educate and communicate with members, as well as the public at large. Many records relate to the FMCBC's operation of the Canada West Mountain School (CWMS), as well as educational materials about conservation, and wilderness activities. Past issues of the FMCBC's newsletter to members, 'Cloudburst', form a large part of the series. Correspondence, brochures, newsletters and reports are major record types throughout the series, though maps, ephemera, and photographs are also present.

Physical description: 72 cm of textual records and other materials

Publication status:

published

Physical description:

Includes 1 photograph, 1 statuette, and 1 sticker
