## Administrative history / Biographical sketch

---

### Note

Gary Vernon Lauk was born on September 7, 1940 in Vancouver, BC. He is the son of Edward Lauk. Lauk graduated from UBC Law School in 1966, and he went on to practice criminal law until he was elected to the B.C. Legislature in 1972 as a member of the New Democratic Party party, representing the Vancouver Centre riding. Lauk was re-elected in 1975, 1979 and 1983.

In 1973, Lauk became Minister of Economic Development and created the B.C. Development Corporation. In 1975, he was appointed Minister of Mines and Petroleum Resources. After the NDP lost the election in 1975, Lauk was appointed as the Education Critic, a role he held from 1975 to 1982. In 1986, Lauk stepped down to allow Mike Harcourt, the new leader of the NDP, to be elected to the assembly.

Since 1986, Lauk has practiced as a personal injury lawyer in Vancouver. He has also sat on the board of the Trial Lawyers Association of BC, the Trial Lawyers Association of America, and on the Board of Corpus Christi College at UBC.

### Custodial history

In early 1976, after the NDP lost the provincial election, Lauk removed his papers to his home. He donated them to the Special Collections Division, (now called Rare Books and Special Collections) of the University of British Columbia. He subsequently donated a second set of his government records in November of 1986, as he had retired from politics in 1985.

## Scope and content

---

The records of Gary Lauk and his Executive Assistants Eric Green and Albert Mellul, are described in this finding aid. They were created in the course of the operations of the Minister's Office during the New Democratic Party (NDP) administration of government. The majority of the material pertains to Lauk's term of office as the Minister of Economic Development (1973-75), Minister of Mines and Petroleum Resources (October - December, 1975), and as Education Critic (1976-1982). Some material predates Lauk's appointment and relates to his responsibilities as a MLA.

Much of the material given in the initial donation deals with the direction given to the Department of Economic Development in its activities of promoting the economic development and diversification of BC while much of the material in the subsequent donation deals with the Education sector in BC from the mid 1970s to the early 1980s. Other records deal with the Lauk's communications with the British Columbia Cabinet and with the NDP party of Canada. A smaller amount of material relates to Lauk's role as a member of the NDP Caucus and the MLA for Vancouver Centre and a few files are of a personal nature.

The records have been arranged into three series: MLA for the Governing Party; Executive assistant to Lauk; and MLA for the Official Opposition Party. Within the first series are subseries of government department and subject files, as well as outgoing correspondence and Printed reference material. In addition, a subseries titled General government files, has been created of the documents that accumulated unfiled, while Lauk was Minister of Mines and during the provincial election.

The Executive Assistant to Lauk series contains two subseries: Subject files and Outgoing correspondence.

The MLA for the Official Opposition Party series contains Lauk's records that he acquired and/or accumulated during the time period from 1976-1985. The series contains four subseries including Education Critic; Subject files; Correspondence; and General government files.

The records largely consist of typewritten documents, such as correspondence, memoranda, briefings, minutes and itineraries. The records also contain printed materials such as press kits, new releases, brochures, newsletters, and newsclippings. Also included are a substantial amount of published and unpublished studies, reports, and proposals produced by the Department of Economic Development or by the other government departments and non-governmental agencies. The non-textual materials include an album of colour photoprints of the BC government's delegation trip to Japan, which Lauk was a part of, as well as a number of loose colour and black and white photoprints.

The fonds also contains correspondence files of Leo Nimsick (1972-1973), Lauk's predecessor as Minister of Mines and Petroleum. Lauk acquired these papers when he was appointed Minister.

## Notes

---

### Title notes

- **Source of title proper:** Title based on the contents of the fonds.

## Immediate source of acquisition

Material from Gary Lauk's time as NDP Member of Parliament from 1973 to 1975 was first transferred by Lauk on June 11, 1977 and officially gifted in November, 1977. A subsequent accrual, covering the years of 1976-1985, was received in 1986.

## Arrangement

The RAD-compliant description for the initial donation capturing the years of 1973-75 was prepared by Ian Burnett and Jane Parkinson in November, 1990. The finding aid was updated to include the records donated in the 1986 accrual by Katie Sloan in 2015.

In August 2015, some of the records obtained in the original donation were reexamined and reappraised. It was determined that the contents in Box 30, which originally contained the records of the Oversized volumes subseries within the Executive Assistant to Lauk series, would be better situated within another series, or deaccessioned altogether. The subseries was thus removed from the finding aid. As a result of this removal, there is no longer a box 30 in the fonds.

## Conditions governing use

Gary Lauk retains the literary rights to the papers he personally created.

## Series descriptions

### MLA of the Governing Party

Date: 1972-1976 (date of creation)

Scope and content:

In 1973, Lauk entered politics and was elected as a Member of the Legislative Assembly (MLA) for the Vancouver Centre Riding. Soon after, Lauk was appointed Minister of Economic Development. As Minister, he established priorities for the Department, approved or disapproved project proposals, provided political policy decision making in conjunction with the cabinet and was the public spokesman for the government for economic issues.

Lauk was also a member of the cabinet committee on Transportation, Housing, and Urban Development. As a result of being a member of that committee, Lauk accompanied the Premier on a trip to Japan in April of 1974, and to the Western Premiers Conference in August, 1974. In addition, he was minister responsible for, and a member of the Board of Directors of the British Columbia Development Corporation, creation by legislation in April 1973, with a \$25 million capital fund for loans and investment in industry and industrial land. Lauk was Chairman of the Board of Management of BC Research, a company that received government funds for economic and other research.

In March 1975, Lauk was appointed to the Board of Directors of BC Rail. In October 1975, he was given, as an additional portfolio, the Ministry of Mines and Petroleum Resources, a position he held until an election was called in November of 1975

The series contains records pertaining to Lauk's role as MLA, Minister of Economic Development and as Minister of Mines and Petroleum Resources. These records include memos, news releases, drafts of and copies of final reports, briefings, meeting minutes, and correspondence sent from and/or received by Lauk. The series is divided into five subseries, including: Government department files; Subject files; Unfiled materials; Outgoing correspondence; and Printer reference material.

## Subject files

Date: 1972-1976 (date of creation)

Scope and content:

The subseries chiefly consists of ministerial records, but also contains personal and political papers in which files are mainly organized alphabetically by subject and roughly arranged in chronological order. Two sets of "General" alphabetic files were created for 1973-74 and 1975, in which other material was filed by name of correspondent or sometimes geographic location or subject.

The records consists of correspondence and memoranda, telegrams, reports and briefs, agreements, transcripts, orders and bills, speeches, news releases, newsletters and circulars, newsclippings, notes, photographs, receipts, invitations and schedules. A number of files are associated with the British Columbia Railway, including agendas and minutes of the Board of Directors (1972-75) and 'Mini Board' (1973-74), annual and monthly reports, and a set of union contracts. These files appear to have been received from another source and integrated into the filing systems.

Additionally, a group of files under the head 'Political' contains material predating Lauk's appointment as Minister and pertains to issues situated in the riding of Vancouver Centre.

**Executive Assistant to Lauk**

Date: 1968, 1972-1975 (date of creation)

Scope and content:

Lauk's Executive Assistants conducted correspondence, communication, and research on behalf of the Minister, as well as assisting him in carrying out his executive duties. The post was first filled by Eric Green, who had a background in journalism and public relations and had provided research

assistance to Lauk upon his election to Legislature. Albert Mellul was appointed Executive Assistant commencing August 1974.

The series contains records pertaining to Green and Mellul including agendas and minutes, newsletters and releases, copies of speeches, notes, copies of correspondence, copies of legislation, and maps. The series is divided into two subseries including: Subject files; and Outgoing correspondence.

Physical description: 3.38 m of textual records  
125 photographs

Arrangement:

When the series was arranged in 1990, the series contained three subseries: Subject files; Outgoing correspondence; and Oversized volumes. The Oversized volumes subseries contained two copies of the May 5, 1974 edition of the *Spokesman Review* newspaper, reports on economic development collected by Green, and a collection of volumes relating to the government's Economic Mission to Japan of April 1974, including briefing books and unidentified colour photographs of the trip. The records were housed in box 30 of the fonds.

However, in August 2015, the archivist reappraised many of the files within the original accrual and it was determined that many of the records in the Oversized subseries would be better suited to the Subject files subseries, while other records could be deaccessioned from the fonds all together. As a result, the economic development reports, as well as the records pertaining to the government's economic trip to Japan, were placed into the Subject files series while the copies of the *Spokesman Review* were removed from the fonds.

**Subject files**

Date: 1968, 1972-1975 (date of creation)

Scope and content:

Many of the records kept by the Executive Assistants consist of briefs or reports sent to Lauk, which were acknowledged and kept for reference but not acted upon. Other records include economic development reports collected by Eric Green, as well as a collection of volumes relating to the BC Government's Economic Mission to Japan in April 1974. The records include agendas and minutes, newsletters, newsclippings, news releases, speeches, notes, lists, invitations, copies of legislation, transcripts, schedules, photographs, and briefing books.

In addition, there is also a set of records called 'Steel Industry' which includes correspondence with a number of international steel manufacturers, as well as departmental studies, pursuant to engaging in a feasibility study.

Physical description: 3.5 m of textual records  
125 photographs

Arrangement:

The subject files are mainly arranged alphabetically. The files in the 'Steel Industry' grouping are arranged in files by name of company.
