Administrative history / Biographical sketch

Note

James Fenwick Lansdowne was a Canadian wildlife artist whose work focused on birds and was frequently compared to that of renowned nineteenth century naturalist and painter John James Audubon. Lansdowne was born in Hong Kong and raised in Victoria, British Columbia, where he lived for most of life and where he had a studio. He was bedridden or in a wheelchair for long portions of his childhood due to polio, and it was during this time he taught himself to paint. Despite having receiving no formal training in art, by the time he was 20 his work had been exhibited at the Royal Ontario Museum and he had been profiled by MacLean's magazine as one of Canada's foremost bird artists. In addition to his paintings, his work was featured in advertisements, books, and even presented to the British Royal Family. Lansdowne was elected a member of the Royal Canadian Academy of Arts (1974), made an Officer of the Order of Canada (1976), and awarded the Order of British Columbia (1995).

Custodial history

Lansdowne's family maintained custody of the records from the date of his death in 2008, until their donation to RBSC in 2019.

Scope and content

This fonds consists predominantly of photographs and other reproductions of Lansdowne's work which were created over the course of his career. Artwork contained in the fonds include unfinished drawings and sketches, reproductions and prints, as well as art inventory files which provide details of works that were sold, and for specific named projects. The fonds also includes business and personal correspondence, as well as financial records pertaining to the sale of artwork, Lansdowne's services as a commercial painter, and his business relationship with M.F. Feheley Arts Company Limited and TDF Artists Limited. Records also include biographical information, awards and ephemera, along with publications containing his work, and newspaper clippings about his work and career. Photographs depict family and friends, Lansdowne at work, as well as publicity photographs.

Notes

Title notes

Immediate source of acquisition

All records were donated by Lansdowne's family in 2019.

Arrangement

While there is no original order for most of the materials, Lansdowne did develop a numbering system for his art inventory files. He also organized much of his correspondence into files.

Conditions governing use

Records indicate that copyright for some artworks was transferred to M.F. Feheley Arts Company Limited, and possibly other publishers; otherwise, copyright remains with Lansdowne's estate.

Accruals

No further accruals are expected.

Artwork

Date: [after 1931]-2019 (date of creation)

Scope and content:

Series consists of three subseries: Unfinished artwork, drawings, and sketches; Reproductions and prints; and Art inventory files. Records contain original artwork by Lansdowne (most of it unfinished paintings and sketches) as well as a few pieces by amateur artists who were fans of Lansdowne's work and reproductions of Lansdowne's artwork which include prints, posters, banners, exhibit catalogues and cards, order forms, stamps, road maps, calendars and the like. Records also include Art inventory files which contain records on pieces of art that Lansdowne produced, including an art inventory card index, and files varying in contents, but which typically included at least one reproduction of the artwork, an envelope containing an alpha-numeric code and the name of the bird(s) featured in each piece. Art inventory files may also include photographs, negatives, positives, slides, and photocopies and the like.

File / item list**Unfinished artwork, drawings, and sketches**

Date: 1951-ca. 1979 (date of creation)

Scope and content:

Subseries consists of artwork by Lansdowne (and a few pieces sent by fans of his work). Most of the work — water colours, drawings, sketches, and paintings — by Lansdowne is unfinished. This subseries provides a window into his creative process, as well as some of his earliest drawings and paintings from the 1950s.

Art inventory files

Date: [1935]-2008 (date of creation)

Scope and content:

Subseries contains records on pieces of art that Lansdowne produced. Files 35-01 to 35-06 contain an art inventory card index which provides details of works that were sold, as well as those for specific named projects. The contents of each art inventory file vary, but typically include at least one reproduction of the artwork and an envelope which bears a unique alpha-numeric code and the name of the bird(s) featured in each piece. The year of creation is usually written alongside Lansdowne's

signature within the artwork. Formats include photographs (both black & white and colour), negatives (both black & white and colour), positives (both black & white and colour), slides (colour), paper photocopies and textual records. Files 06-30 to 06-32 and 06-34 to 06-36 also include sketches.

Physical description: 2.885 m of photographic materials (photographs, negatives, positives, slides, paper photocopies) textual records and sketches.

Note:

PH-1171 to PH-1221

Arrangement:

The files in this subseries have been arranged with Files 35-01 to 35-12 at the beginning containing an art inventory card index and other records, then in numerical order by Lansdowne ID, which can be found at the File level in the Notes area: Alternative identifier(s) field. Where Lansdowne included the ID number on his own files, that number is reflected in the title, as well as the Alternative identifier(s) field; when the ID number was located within the file, the ID is reflected solely in the Alternative identifier(s) field. When a file contains records with multiple IDs, the file is slotted into order based on the first ID located within the file. Artwork inventory files that do not contain an ID number have been arranged alphabetically by title at the end of the list. A few files were empty upon receipt, but have been retained to preserve Lansdowne's numbering system. Some records from these empty files may be located elsewhere within the subseries and, where applicable, the new file number has been provided in the General note field. There may be an error in Lansdowne's numbering system as E-18 is located in File -7-20, which is part of a group of Tryon Commissions (E-13 to E-18) and is also part of a standalone file "E-18 Canada geese" found in File 07-21.
