Fonds Description

Peter A. Larkin fonds. – 1946-1996.

6.35 m of textual records.

30 photographs.

Biographical Sketch

Dr. Peter Larkin was an eminent fisheries biologist, well-known and respected for his expertise in the areas of conservation, resource management, and environmental impact assessment. Born in New Zealand in 1924, he later moved to Canada as a child with his family. He received an M.A. from the University of Saskatchewan in 1946, and a D.Phil. from Oxford (where he was a Rhodes Scholar) in 1948. Larkin was appointed Chief Fisheries Biologist for the British Columbia Game Commission in 1948. He joined the faculty of UBC in 1955 as professor of zoology and Director of the Institute of Fisheries. From 1963 to 1966 he was Director of the Fisheries Research Board of Canada's Pacific Biological Station at Nanaimo, B.C., but returned to UBC in 1966. He was again Director of the Institute of Fisheries from 1966 to 1969 as well as Acting Head (1969-70) and Head (1972-75) of the Department of Zoology; Dean of Graduate Studies (1975-84); Associate Vice-President, Research (1980-86); and Vice-President, Research (1986-88). Larkin continued to serve as professor in both the Institute of Fisheries (later the Institute of Animal Resource Ecology) and the Department of Zoology until his retirement in 1990, and was appointed to the honorary position of University Professor in 1988.

After he retired, Larkin chaired the Royal Society of Canada's Research Evaluation Unit at UBC and the Science Advisory Committee of the Northern River Basins Study in Alberta, and served on the interim governing council of the University of Northern British Columbia. An author of more than 160 scientific papers, he also served on numerous local, national, and international commissions addressing a wide range of scientific and public policy issues. He was a Fellow of the Royal Society of Canada; won UBC's 1971 Master Teacher Award, as well as numerous other awards; and was presented with two honorary degrees (University of Saskatchewan in 1989, UBC in 1992), the Order of Canada, and, shortly before his death in 1996, the Order of British Columbia.

Scope and Content

The fonds consists of correspondence, reports, notes and drafts for scientific papers and lectures, overhead transparencies used in lectures, photographs, scrapbooks, and publications. The records document Dr. Larkin's research, teaching, and administrative careers, and also provide an overview of his roles as a scientific authority on various

public issues. It also includes some administrative records from the UBC Institute of Fisheries that had been integrated into the fonds. The records are arranged in the following series: Subject Files; Peter Larkin – Personal; Publications, Manuscripts, and Lecture Notes; Institute of Fisheries / Institute of Animal Resource Ecology (sub-series: Administrative Files and Scrapbooks); Salmonid Enhancement Program; Rawson Academy of Aquatic Science; British Columbia Packers Limited; SPARK [Strategic Planning for Applied Research and Knowledge – B.C. Science Council]; Wilderness Advisory Committee; Special Advisory Committee on Strathcona Park; Northern River Basins Study (sub-series General Files and Reports); ICLARM [International Center for Living Aquatic Resources Management] / CGIAR [Consultative Group on International Agricultural Research]; "Boldt Decision" [United States vs State of Washington]; and IDRC [International Development Research Centre].

Notes

File list available.

Transferred to the University Archives from the Research Evaluation Unit in 1995 and 1996.

Photographs arranged and described separately. Selected photographs digitized and included in UBC Archives' [Historical Photograph Database \(UBC 18.1\)](#).

Some materials restricted.

Series Descriptions

Subject Files series. -- 1958-1995.

1.1 m of textual materials.

Series consists of correspondence and reports concerning persons and institutions with which Dr. Larkin was in regular contact, but which did not necessarily have a direct relation to his work. Includes material on the "Kemano Completion" project and the Royal Society of Canada, and correspondence with H.R. MacMillan.

Series arranged in alphabetical order.

Peter Larkin - Personal series. – 1948-1988.

12 cm of textual materials.

Series consists of lecture notes, newspaper clippings, CV's, and correspondence of a personal nature to Dr. Larkin. Included are a notebook containing notes for his Oxford D.Phil. thesis on moles, and letters of congratulation on his appointment as University Professor.

Series arranged in chronological order.

Publications, Manuscripts, and Lecture Notes series. – 1946-1992.

1.40 m of textual materials.

Series consists of manuscripts, lecture notes, correspondence, overhead transparencies, and published materials related to Dr. Larkin's publications, articles, reports, course lectures, and public lectures and presentations. The materials cover the entire range of his interests and activities in fisheries and the environment.

Series arranged in chronological order.

Institute of Fisheries / Institute of Animal Resource Ecology series. – 1948-1988.

95 cm of textual materials.

Series consists of correspondence, CV's, reports, and scrapbooks relating to the Institute of Fisheries / Animal Resource Ecology, arranged in two sub-series.

Administrative sub-series. – 1948-1988.

65 cm of textual materials.

Sub-series consists of correspondence, CV's, and reports relating to the administration of the Institute, its programs and its personnel.

Sub-series arranged in alphabetical order.

Some materials restricted.

Scrapbooks sub-series. -- 1952-1979

6 scrapbooks ; 30 cm.

Sub-series consists of scrapbooks, containing photographs and newspaper clippings, documenting the early history of the Institute.

Salmonid Enhancement Program series. -- 1973-1991.

28 cm of textual materials.

Series consists of correspondence, notes, and reports documenting Dr. Larkin's involvement with the British Columbia Salmonid Enhancement Program.

Rawson Academy of Aquatic Science series. – 1978-1991.

20 cm of textual materials.

Series consists of correspondence and reports relating to the Rawson Academy of Aquatic Science and Dr. Larkin's involvement with it.

British Columbia Packers Limited series. -- 1973-1996.

13 cm of textual materials.

Series consists of correspondence, reports, and minutes from B.C. Packers Ltd., of which Dr. Larkin was a member of the Board of Directors. Included are reports on mariculture and salmon prediction.

Some materials restricted.

SPARK series. -- 1988-1989.

7 cm of textual materials.

Series consists of correspondence, minutes, and reports arising from Dr. Larkin's involvement with the Strategic Planning for Applied Research and Knowledge, also known as the B.C. Science Council.

Wilderness Advisory Committee series. -- 1984-1986.

15 cm of textual materials.

Series consists of correspondence, minutes, reports, and published maps relating to the Special Advisory Committee on Wilderness Preservation, which advised the provincial government on the management of wilderness areas in B.C., in particular the Spatsizi-Stikine and Tatshenshini-Atsek regions.

Special Advisory Committee on Strathcona Park series. – 1985-1988.

40 cm of textual materials.

Series consists of correspondence, and reports from a committee set up to advise the provincial government on managing Strathcona Park on Vancouver Is., which Dr. Larkin chaired. Also included are exhibits and written submissions to the Committee from concerned citizens and groups.

Northern River Basins Study series. – 1992-1996.

1.10 m of textual materials.

Series consists of correspondence, minutes, and reports from the Northern River Basins Study, which examined the ecology and human activities of the Athabaska-Peace River basin. Dr. Larkin chaired the Study's Science Advisory Committee. The materials are arranged in two sub-series.

General Files sub-series. – 1992-1996.

50 cm of textual materials.

Sub-series consists of correspondence, reports, notes, and minutes from the NRBS Board and the Science Advisory Committee.

Reports sub-series. – 1992-1996.

60 cm of textual materials.

Sub-series consists of periodic and annual reports issued by the Northern River Basins Study.

ICLARM / CGIAR series. – 1987-1992.

15 cm of textual materials.

Series consists of correspondence, reports, and minutes arising from Dr. Larkin's involvement with two inter-related international research organizations: the

International Center for Living Aquatic Resources Management (ICLARM), and the Consultative Group on International Agricultural Research (CGIAR).

"Boldt Decision" series. – 1977-1983.

10 cm of textual materials.

Series consists of correspondence, reports, and copies of court documents relating to an American court case, "United States vs. State of Washington", dealing with a dispute over Indigenous Peoples' fishing rights. Dr. Larkin served as a paid consultant and expert witness on this case.

IDRC series. – 1989-1992.

20 cm of textual materials.

Series consists of correspondence, minutes, and reports arising from Dr. Larkin's involvement with the International Development Research Centre.
