Summary information

Repository:	University of British Columbia Library Rare Books and Special Collections
Title:	Richard Herring fonds
ID:	RBSC-ARC-1697
Date:	1950 - 2011 (date of creation)
Physical description:	163 cm of textual material. - 3742 photographs. - 90 film reels. - 2 videocassettes.
Dates of creation, revision and deletion:	
Note [generalNote]:	Photo Identifier: BC-2156-1-3742
Note [generalNote]:	Film and Video Identifier: RBSC-ARC-1697-SPFilm-1-90 and RBSC-ARC-1697-SPVT-1-2

Administrative history / Biographical sketch

Note

Richard ("Dick") M. Herring was born April 27, 1931 in New York City, to parents Frederick M. Herring and Constance Herring Harrison.

He graduated from high school in 1948 in Newtown, Connecticut, and went on to earn a degree from the University of Michigan School of Forestry. He served in Korea with the US Marine Corps and the Black Watch.

Over the course of his professional forestry career he worked as a logger, forester, prospector, senior executive, and consultant. His work took him all over the world, from the tropics to the forests of Alaska, British Columbia, and the high Arctic. He worked in Alaska for Alaska Lumber and Pulp, and then for Canadian Forest Products Ltd., first as Woodlands Manager in Chetwynd, BC, and then as Manager of Mainland Logging Division on the coast. After leaving CFP he worked as a consultant, first for Stewart Ewing and Associates and then independently. He was a long-standing member of the Canadian Institute of Forestry.

In addition to travelling extensively, he enjoyed bagpiping, sailing, hunting, fishing, and shooting. He championed the conservation of wildlife and the preservation of First Nations culture. Other interests included military history, food, wine, and whiskey.

He died April 15, 2012 in Vancouver, BC.

Scope and content

Fonds consists primarily of textual materials related to Herring's forestry career. Materials related to his extensive interest in the forestry industry are also present, including documents related to various lectures and conferences in which he participated. Materials include correspondence, reference materials, maps, blueprints, financial documents, handwritten notes, and more.

Also included in the fonds are photographs, slides, and moving images; some of these are images related to forestry, while most show scenes related to Herring's personal interests and travels, many of which involve hunting and fishing, or attending Highland games and other cultural celebrations and events. Within the fonds, some series have been arranged on the basis of format, in cases where they were originally arranged in such a way. These include the photographs, slides, and moving images series. Some photographs and slides, however, can also be found in other series, where their original locations have been respected. The forestry series was the only one that was explicitly arranged and labelled by the creator; in all other cases, series have been imposed by the archivist while attempting to identify and respect original order whenever possible. In almost all cases, file titles have been transcribed from the creator's own files.

Notes

Title notes

- **Source of title proper:** Title based on contents of the fonds.

Related material

Mr. Herring's map collection is housed at Simon Fraser University Library.

Other notes

- **Publication status:** published

Series descriptions

Records related to Canadian Forest Products Ltd

Date: 1955-2011, predominant 1970-1985 (date of creation)

Scope and content:

Series consists of reports, clippings and published materials, correspondence, employment records, handwritten notes, brochures, and other materials related to Herring's employment with, and

termination from, Canadian Forest Products Ltd (Canfor). Also included are immigration documents related to Herring's immigration to Canada.

Physical description: 23 cm of textual material.
40 photographs : 19 b&w, 21 col. slides (Kodachrome).

Note:

Photo Identifier: BC-2156-1-21 and BC-2156-193-211.

Forestry

Date: 1950 - 2010 (date of creation)

Scope and content:

Series consists of a variety of materials related to forestry. The majority consists of reference materials (clippings and published materials); there are also reports, correspondence, memos, business cards, measurement tools, newsletters, maps, diagrams, data printouts, brochures, manuals, and more.

This was the only series explicitly arranged and labelled by the records creator. It is not immediately apparent why these materials were filed together, while others were not. Materials related to some of Herring's consulting projects, as well as various other professional endeavours, are included; as a result, there is considerable overlap with the subject matter of other series.

Series title, file titles, and order of files, as they were given by the records creator, have been respected.

Physical description: 21 cm of textual material.

Related material:

Materials in this series and their subject matter relate to materials in almost all of the other series in this fonds; most notably, there is considerable overlap with the "Consulting projects" and "Writing, teaching, and professional development materials" series.

Records related to Alaska

Date: 1976 - 2001 (date of creation)

Scope and content:

Series consists of materials related to Herring's consulting work in Alaska and with Alaskan companies, and to his ongoing interest in the state's forestry industry. Included in this series are materials related to the Alaska Pulp Corporation (APC) v. United States case, and updates on various APC projects and interests in which he was involved while he was employed with them. Many background and reference materials are also included, as well as annual reports from companies like Klukwan, Goldbelt, and Sealaska. Materials include reports, clippings and published materials,

handwritten notes, correspondence, memos, meeting minutes, business cards, maps, conference proceedings, and more.

Physical description: 24 cm of textual material.

Related material:

Other materials related to Herring's consulting work are found in the "Consulting projects" series; other materials related to his interests and projects in Alaska can be found in the "Forestry" and "Writing, teaching, and professional development materials" series.

Consulting projects

Date: 1985 - 1999 (date of creation)

Scope and content:

Series consists of materials related to Herring's consulting career, both as an employee of Stuart & Ewing Associates Ltd. (SEAFOR), and as an independent consultant. Materials include correspondence, memos, brochures, clippings and published materials, handwritten notes, meeting minutes, reports, photographs, blueprints, and more.

Physical description: 69 cm of textual material.

143 photographs : b&w and col.

Note:

Photo Identifier: BC-2156-22-164

Related material:

Other materials related to Herring's consulting work can be found in the "Forestry" series; some materials related to his consulting work in Alaska can be found in the "records related to Alaska" series.

Moving images

Date: [after 1955], predominant 1960-1984 (date of creation)

Scope and content:

Series consists of film reels and videotapes showing footage of Herring's travels, both work-related and personal. Most of these trips were in and around British Columbia and Alaska, but also include Scotland, Australia, Tasmania, Tahiti, and other locations within North America. Subject matter includes Herring's hunting and fishing trips, Highland games, scenic views, wildlife, and scenes of logging, helicopter logging, forestry equipment, and mills.

Physical description: 90 film reels : Super 8 mm.
2 videocassettes.

Note:

RBSC-ARC-1697-SPFilm-1-90 and RBSC-ARC-1697-SPVT-1-2
