Administrative history / Biographical sketch

Note

Robert Reid was born in 1927 in Medicine Hat, Alberta. His family came to the West Coast in 1936, living in Abbotsford and Vancouver.

Reid became interested in printing when he was given a handpress during his childhood. His years as a student at the University of British Columbia, where he graduated in 1949 with a Bachelor of Commerce, were spent experimenting with his press, producing imaginative ads for campus events.

Reid worked at the UBC Library in the Reference Division. His association with Neil Harlow, then the Chief Librarian, led him into the field of fine printing. He opened his own press under a variety of names including Graphos Press, The Nevermore Press, and eventually the Private Press of Robert Reid.

Reid lived and worked in the Vancouver area until 1963 when he moved to Montreal and then to New York in 1974.

Robert Reid passed away on January 21, 2022.

Scope and content

The fonds consists of material relating to the work and collections of Robert Reid. It includes a collection of fine printwork from a variety of presses, examples of printed material at various stages in the publication process, and research and reference material relating to design and printing.

Also included in the fonds are biographical material, correspondence to and from Reid, financial records, speeches, notes, clippings, and photographs. The content of this material relates to both the personal and professional life of Reid and spans from the the 1930s to the 2000s.

Series descriptions

Research and project development

Date: 1930 - 2009 (date of creation)

Scope and content:

This series contains material regarding the process of creating printed publications. Material primarily relates to the work of Robert Reid and includes correspondence with clients, development materials and printed samples. Large hardcover mock-ups of publications or potential publications are included in this series.

Also included in this series is material acquired by Robert Reid that was likely to have played a role in his research and developmental process. This material includes collections of printed material (like hotel labels, packaging labels, bank notes and newspaper clippings). It is likely that this material served as reference or inspiration in regard to his own work. Prominent topics include golf courses, currency, World War II, and Canadian art.
