

[1995]

Dear Carolyn:

We celebrated Helen's 79th in September, and I'm trying to apply for the O.P. but the line is always busy. With government cut backs, I suppose there may be no one at the other end.

The film continues to do well at festivals and will be out on video any time now. Memory Book is no closer to being filmed, but I'm still collecting an option on it.

There's an indoor pool now on Galena which we've been invited to use for the winter; so we don't yearn for the desert. I made a couple of quick trips to see Mother instead. She turns in my sister's laundry care.
