Dear Cassy:

I assume you've had a personal answer from your health-person. We did have a good evening, including a concert from Fred, who is planning a new record for the spring. I was in Ottawa for writers' union meetings in Montreal for 3 days' teaching and gossiping meetings with Marie - Claire Blais in late October, will be going briefly to California between Christmas and the New Year. Generally life is far too cluttered and public, but this is the year to do that. (I did also very much enjoy meeting Marion Tople, though we didn't have a chance for a real talk.)

Her new book is done and on its way. all good luck to it.

Love,
Jane
