

Rear Carolyn: (Surviving).
After 3 months my gay niece's marriage
in September, I came down with pneumonia
from which I'm now slowly recovering, a
dull business except for a few good books.
I've just heard Tim to be given the
order of Canada to be announced in December.
The spite of old age sometimes takes very
odd, but at least it must be a minor
embarrassment for our Utopian general-
mand.
