Dear Mr. Clark:

Page 41 of the current collective agreement lists, under Pay Grade VII, the position of Chief Computer Operator. We do not appear to have a job description for this position in our office. Are you able to supply us with such a job description. At the moment there is no person fulfilling this particular position.

Yours truly,

Neil Boucher requested this letter. He wants the Job Evaluation Cmtte revived again too and asked for this Cmtte to be brought up under New Business at the January 18, 1979 General Membership Meeting.
