This is to confirm receipt of your letter dated 18th September, 1979. Before proceeding with your request, I am requesting your presence at the next executive meeting in the Union Office on October 2, 1979 at 5:00 p.m. A final decision on how to proceed with the charges should be made at that meeting.

This is to confirm that I want the charges to proceed against Kerry Higginbotham, Valerie Pusey and Toby Moyls. Any charges remaining against other people can be dropped. Please note that I did not lay charges against Nancy Smith -- but I feel very strongly that whoever did charge her should proceed with the charge, or that the union should proceed against her. A letter of admission from her is on file.

My only concern with regard to these charges is a procedural one. I think that the "trial" should proceed without my being expected to act as prosecutor. My role is like that of a person who reports a crime to the police -- that of a witness, nothing more.

If there is any problem with this, please give me a call.
