Marcel,

There are a few things that we should get onto right away. We have to shift the strike funds into the general account - that takes only two signatures I believe. More importantly we have to proceed with the borrowing of the \$50,000.

Other items of interest include establishing some mechanism and schedule by which we pay picketers. Ensuring that we have an adequate supply of cheques to cover the expected onslaught.

Then there are the matters of Tuesday's Executive meeting. Are we still going to have it? and lest we forget we have two referenda (not counting the one on affiliation) to concern ourselves with: the Union Organizer and the Assessment Issue. Dates, wording, and actually getting them to members is a problem.

And, where is Campus Mail and what do we plan to do with it? Use it, ignore it, or shut it down?

Anyways, I'll be in touch some time today to resolve some of the above.

Ray

Wendy

PS. I feel like a grave digger. I'm losing touch with what's going on. We need more communication and continuity - not just for us but for the picketers. There are countless other issues that need addressing but they'll have to wait.
