Montreal, Que.

Dear Sir :

I have your letters dated August 30th and October 7th, for which I thank you.

I regret that the first letter was not answered before, but I was waiting to receive some copies of the correspondence "Industrie und Handel" which you intended to send me. After seeing some of these articles - the type and length of them - I would better judge whether my time would allow me to go into this kind of work. My practice has kept me so busy lately, that I had to discontinue writing articles for the "Hamburger Fremdenblatt", although this type of work always very much appealed to me.

As soon as I get a chance to study some of the reports you have in mind, I will be in a position to let you have my definite answer without further delay.

In the meantime, I remain,

Yours respectfully,

DR. F. ZEIDLER.
