

JAN. 15/81

Dear Carol,

I have a question dealing with "glasses" that I would like to ask the union about.

A couple of months ago I went to the doctor about severe headaches and after a few tests etc. he asked about the "lighting" in my job - I told him exactly how bright the lights are, how low they are & that we have no windows. He then suggested that I get a pair of glasses which would help with the bright lighting. Although I do not wear prescription glasses I thought I might give this a try!

After looking at the cost of this endeavor I wondered if there was any way I could get partial coverage from U.B.C.?

Thanks.
