Vancouver, B.C. V6J 3J6

Dear Friends:

I note from the 1981 Directory of Services for Greater Vancouver that your group does "research for women's groups and provides workshops on skill development, including research techniques, organizing techniques and issues."

Could you possibly provide us with additional information on the type of research and workshops you specialize in. We are interested in workshops for large groups in the areas of health and safety, women's issues and trade union activity. We are further interested in small training sessions to train our own people to give seminars.

Your assistance will be most appreciated.

Yours truly,

Carole Cameron  
Staff Representative  
AUCE Local 1
