

## Help to Stop Hitler

*Buy Canadian or Empire Goods, or Goods of  
Friendly Democratic Countries.*

It is a sure way to maintain Democracy  
and defeat dictatorship nations.

DO NOT PATRONIZE NAZI GERMANY

---

This pamphlet is one of a series issued  
by the

CANADIAN FEDERATION OF  
DEMOCRATIC ASSOCIATIONS

The purpose of the C.F.D.A., as set forth in its Constitution, is "to provide a common meeting ground for progressive associations and individuals pledged to the principles and practice of political and economic democracy; to promote better understanding between groups, and facilitate joint action on policies of mutual agreement. To serve as a central bureau for information, literature, programs, and statistics; generally to give service to its members and assist the furtherance of democratic ideas."

*Inquiries are invited.*

## COMMON GERMAN DRUGS

### and their Equivalents

The drugs listed are known to be made in Germany, or to have some connection with a German firm, either through importation of raw materials from that country, or through being made or distributed by a subsidiary firm in the U.S.A. or Canada.

Opposite each German-made drug is given a drug of British, Canadian, or American origin, equivalent in its chemical structure or therapeutic effects.

Anyone wishing to prescribe drugs of Canadian, British, or American origin rather than German drugs, will find the enclosed list reliable.
