Dear Ms. Bice:

Re: Working conditions at the Biomedical Branch.

In reply to your letter of June 5th I would like to assure you that I am aware of the problem. It is my understanding that some changes were made in response to the recommendations of Mr. Robson, but the problem remains and several solutions are being considered by UBC and VGH Departments of Physical Plant including the possibility of putting extra windows in the east wall of room 108.

I will enclose copies of various letters and memoranda that have relevance to the subject. I assure you I would like to find a solution - I work here too.

Yours very sincerely,

*George C. Freeman*

George C. Freeman  
Head, Biomedical Branch
