

The Executive Committee
AUCT Local #1

Sept 3/76

In the 'offer' from the University regarding our '76-'77 contract, they propose retaining the job titles & classifications as stated in our current contract. However, since last year several new &/or revised title, descriptions & classifications have been put forth by the University. Some of these are mail clerks, Accounting clerk, Accounting supervisor & Section Head - Payroll. As I fit into one of these classifications, I am most concerned that an early meeting be called with the University in order to finally adopt these. From the contract committee, we would then revise this list of job titles, etc for the next contract. As it states in the half-adopted descriptions, I don't think I'm employed in Auce (Payroll is under 'accounting')
