707 Canada Cement Bldg.,
Montreal.

Dear Sir:-

We understand that for customs purposes the value of the RM will, in consequence of an order of your Government, be calculated at 32 cents in future instead of 40 cents. As the duty including consumption tax is more than 30% for Ground Barytes, if we are correctly informed, this will make a difference of almost 7% in the actual cost of our shipments to you.

We shall be glad to hear whether you agree to this; if it is correct it is very good news indeed.

Very Truly Yours,

BARYT-KONTOR, G.m.b.H.
