## Background Information

Fire insurance plans of the Dominion of Canada 1885-1973 / collected by Phelps Publishing Company. -- [Toronto, Ont. : Insurers' Advisory Organization, 1894-1972]. -- 600 plans on 16,994 sheets : lith., ms. col. ; scales [1:600], [1:1 200], or [1:2 400] ; 64 x 54 cm. & 33 x 25 cm.

Edward Phelps of the Phelps Publishing Company, London, Ontario, acquired most of the stock of the Insurers' Advisory Organization headquarters in Toronto in 1974 when the IAO closed its Plan Division. After selling much of his collection, Phelps offered a set of fire insurance plans for Canada to the University of British Columbia Library. This collection was received in 1982, and consists of plans for 600 Canadian cities and towns.

The plans for British Columbia municipalities have been fully catalogued in the Map file on the UBCLIB catalogue, and are in the guide to fires insurance plans for British Columbia.

Fire insurance plans are detailed plans, on the scale of 50, 100 or 200 feet per inch, designed to provide the fire underwriters with sufficient information at a glance on which to base risk assessment. In addition to separate series for salmon canneries on the British Columbia coast, detailed plans were done of other industries including sawmills and mines. These are generally included with the plans for the appropriate community, including Vancouver.
