Vancouver, B.C. V6H 3H4

Dear Katy:

Further to our conversation yesterday on changing our certification, there are, at this time, two branch libraries outside UBC besides the one at Vancouver General Hospital. The three branch libraries to date are:

- Biomedical Branch at VGH
- St. Paul's Hospital Health Sciences Library
- Eric Hamber Library (Children's/Grace/Shaugnessy hospitals)

Therefore we would agree with the suggestion you made that the certification should read in such a way that all employees of UBC, wherever, fall within our group. The only qualification would be to exclude those people already covered by other agreements ie. CUPE and OTEU.

If you need any further information, let me know. Thanks.

Yours truly,

Carole Cameron
