APPRAISERS' BULLETIN
(Miscellaneous Series)

For the guidance of Customs and Excise Officers.

H. J. Tracy

Commissioner of Customs

INDEX SUBJECT

MOTORS, ELECTRIC
ELECTRIC MOTORS

Ottawa, 6th April, 1937.

N.B.—Goods shall not be entered at less than their true invoice value.

File No. 181215

Appraisers' Bulletin No. 3819 is hereby cancelled

APPRAISAL OF SECOND-HAND OR USED INDUCTION
MOTORS (LARGER THAN FRACTIONAL H.P. TYPE)
FROM THE UNITED STATES

Importations of second-hand or used electric motors from the United States are to be carefully appraised for regular duty purposes based on the values stated below of similar motors new less an allowance only for actual depreciation in the condition as imported.

The usual life of such motors would appear to be about seventeen years for motors less than 50 H.P., and about twenty-two years for motors of 50 H.P. and over. The average depreciation per annum is therefore 6% and 4½% respectively.

The allowance for depreciation from the value new of motors that have been overhauled and repaired and are in good condition would, it appears, not exceed 20%, depending on the condition as imported.

The values of motors new stated below are for use in the appraisal of used motors. The list prices stated are subject to resale and quantity discounts as follows:—

Resale discount 12% off list
Quantity discount 10 and over..... 5% off list
