Dr. Eric Jeffries  
Chairman, Division of Occupational  
and Environmental Health  
Department of Health Care and Epidemiology  
Faculty of Medicine  
U.B.C.

Dear Dr. Jeffries:

Your letter about the VDT study was discussed at the last Executive Meeting. The Executive members are favourable towards having a scientific study conducted which would provide more information on VDTs and health.

There are a number of questions regarding the study which the Executive would like answered. They would like more information about the parameters of the study, the methodology, and the medical questions to be asked. There was also concern that the personal and medical information be kept strictly confidential and that only the medical personnel directly involved with the study have access to this information. We would like to receive a copy of the completed study.

We look forward to receiving further information from you.

Sincerely,

Nancy Wiggs  
President, A.U.C.E. Local 1
