Gentlemen:

We are importers of cutlery such as barbers' razors, shears, cuticle nippers, etc. and have a branch in Toronto, Ontario. Merchandise of this class is imported directly by our branch from Germany.

It is our understanding that there is now existing an arrangement between the German and Canadian governments, whereby our branch could import the above mentioned articles under a Barter arrangement.

We would greatly appreciate your forwarding to us complete details of any arrangements now in force between the two governments.

Yours faithfully,

BRESDUCK, Inc.

*uh 3/3.*

Dear Sirs,

In reply to your inquiry of February 26, I have pleasure in enclosing herewith text of the "Provisional Trade Agreement and Payments Agreement between Canada and Germany".

Although originally it was provided that barter transactions would be permissible for a period of six months from November 15th, I have been informed by competent German quarters that owing to the large number of applications for barter business which had been filed in Germany, further applications have no prospects of being granted. In other words, the German exports to Canada are to be paid for by straight foreign exchange (Devisen).

Yours very truly,

(H. Schafhausen)  
Acting German Consul.
