Occupational Health Resource Service
Department of Kinesiology
Simon Fraser University
Burnaby, B.C. V5A 1S6

Dear Samia:

I am sorry for not getting back to you sooner regarding the health hazard analysis of video display terminals (VDT) operations that your service has agreed to carry out for our union.

We have been able to obtain some funding from Labour Canada but our union will have to come up with the rest. A motion for this funding will be made at our union meeting on August 20th. In addition I have requested the co-operation of the university so far as the comprehensive direct experimental analysis of our members on the job is concerned.

You will hear from me again early in September.

Yours truly,

Carole Cameron
Union Organiser
AUCE Local 1
