There's really nothing to explain.
The cover is an expression of
our sense of humor + not ^{necessarily} an indictment
of any profound idea. We never
expected to appeal to everyone, +
your letter is living proof of
that. - thanks for

Excuse me if I'm missing the point but I and several co-workers found the cover picture of the December edition of On CUE more than a little offensive. Could you please enlighten us as to its significance to the Christmas season (or any other season for that matter) Someone over there seems to have a great deal of hostility

toward something! True as it may seem
couldn't a Christmas Tree have been a
more appropriate way to wish your members
a merry Christmas! I look forward
to an explanation in the next issue as
I am very puzzled.
