Provenance: International Union of Mine, Mill and Smelter Workers (Canada)

Title: International Union of Mine, Mill and Smelter Workers (Canada) fonds

Dates: 1897-1967

Physical desc.: 75 m of textual records and other material

Bio/Admin History: The International Union of Mine, Mill, and Smelter Workers dates to 1893 when a small group of miners created the Western Federation of Miners in Idaho. The Rossland Miners' Union (1895) became Canada's first recorded local in 1895. In 1916 the WFM changed its name to the International Union of Mine, Mill and Smelter Workers and constitutional amendments in 1955 firmly established the Canadian section of the union. The Union expended much energy in jurisdictional disputes and contended with raids from the International Steelworkers of America. The two unions merged in 1967.

Scope/Content: The fonds consists of records from the International Office (Denver), national office (Toronto), B.C. District Union files, Western District Union Files, and records of Canadian locals, the Western Federation of Miners, District No. 6 and its locals, the Sandon Miners Union, and the Metal Miners Union of the One Big Union (1920-1933). Records of individual locals vary from minute books and financial records, reports, and correspondence to extensive subject files and financial reports for larger locals. The fonds also includes a substantial photograph collection documenting union activities (1944 to 1962), tape recordings, films, charters, badges, official seals and recordings of Paul Robeson Peace Arch concerts (1950s).

Title source: Title based on the contents of the fonds.

Physical desc. note: Includes: ca. 962 photographs, 29 sound tape reels, 2 films, and 2 m realia.

Finding aids: Inventory available.

RECORDS of the International Union of Mine, Mill and Smelter Workers (Canada)

In 1967 the Union merged with the United Steelworkers, and established the Mine-Mill Historical Commission to collect and preserve the records and documents of Mine-Mill. The papers and records were deposited in the U.B.C. Library in 1968, largely through the efforts of Commission Secretary Emil Bjarnason, of the Trade Union Research Bureau, Vancouver.

In addition to this preliminary inventory, another inventory describing the material contained in boxes 1 - 86 in much greater detail has been prepared for many interested researchers outside the Lower Mainland of British Columbia. If you wish to use that inventory, please request it at our reference desk.

THE INTERNATIONAL.....

Prepared by Wing Au, 1978.

Papers of the International Union of Mine, Mill and Smelter Workers (Canada)

In 1967 the Union merged with the United Steelworkers, and established the Mine-Mill Historical Commission to collect and preserve the records and documents of Mine-Mill. The papers were deposited in the U.B.C. Library in 1968, largely through the efforts of Commission Secretary Emil Bjarnason, of the Trade Union Research Bureau, Vancouver.

For an inventory of the records of Cominco transferred to the Provincial Archives of B.C. relating to labour relations, see: pamphlet no. Z6611 M6B8, 1976.

The general inventory includes a general listing of material contained in boxes 56 - 162 as well as boxes 1 - 55.
