EMPLOYEE RELATIONS

February 11, 1977.

Mrs. Elizabeth Winterford,
President,
A.U.C.E., Local #1,
2162 Western Parkway,
Vancouver, B.C.

Dear Mrs. Winterford:

The University is giving notification of technological change under Article 19.04 of the Collective Agreement according to a letter received from Mr. I. F. Bell, Associate Librarian.

Beginning May 15, 1977, the Library plans to make technological changes in cataloguing procedures beginning with the conversion of the Catalogue Location File and Shelf List to a computer based system that will replace some catalogues with computer-output-microfiche (COM) files. Other parts of the card catalogue system will be changed gradually as new procedures and systems can be implemented. These changes will take place over a number of years and although they will have an impact on both number and level of staff needs the Library expects that normal attrition and transfer of staff within the Library will accommodate the effect of the changes.

Yours very truly,

W. L. Clark
Assistant Director
