The German Consul-General for Canada,  
1440 St. Catherine St. West,  
Montreal, P. Q.

Dear Sir:

Would you kindly furnish me with a list of  
all German manufacturers of glass articles known as  
ampoules?

It may interest you to know that I have been  
successful in having the Department of National Revenue,  
Canada, change the tariff classification on these articles  
from Tariff Item 326 to Tariff Item 326a, thereby reducing  
the rate of duty on importations from Germany to 20-10%  
from 30%.

It is my intention to communicate this inform-  
ation to German manufacturers of ampoules in order that  
they may inform their customers in Canada of the proper  
tariff classification.

Your kind cooperation will be appreciated.

Yours sincerely,

W. W. DIX
