March 19, 1982

The Honourable Grace McCarthy  
Minister of Human Resources  
Parliament Buildings  
Victoria, B.C. V8V 1X4

Dear Mrs. McCarthy:

The day care facility situation at the University of British Columbia is in a critical state. I am certain that representatives of the University President's Committee on Day Care have made some of the problems known to you. I enclose for your information a copy of the February 17, 1982 article on the closing down of the University's child care centres in the UBC Reports.

We have been correspondending with Mr. Nathan Divinsky, head of the President's Committee and will be making a presentation to this committee early in April. In the meanwhile, since the province is mainly responsible for the subsidizing of the day care facilities on the endowment lands, we would appreciate knowing what attention has been given, by your Ministry to this problem. Are you aware that the Bob Berwick Centre at the University will be transferring its facilities to Surrey. This facility would be a highly desirable one for day care centres at UBC.

Yours truly,

Carole Cameron  
Union Organiser  
AUCE Local 1
