## SCOPE/CONTENTS

Minutes, correspondence and printed material relating to the activities of the British Columbia Home Economics Association as well as records of its predecessor, the Vancouver and District Home Economics Association.

## HISTORICAL NOTE

The British Columbia Home Economics Association was created in 1975 after the Vancouver and District Home Economics Association disbanded several years previously. Its major objective is to promote the well-being of individuals and families in B.C. through the advancement, determination, and encouragement of the skills and knowledge of family life and care by the trained home economist. It has been involved in various projects such as leadership training, printing scholarships, producing theme conferences and selling cookbooks.
