

CANADIAN LABOUR CONGRESS EDUCATION OFFICE
BRITISH COLUMBIA

An inventory of their records in the Library
of the University of British Columbia
Special Collections Division

Prepared: 1985

INTRODUCTION

In 1956 when the C.L.C. was established, regional education offices were created. The function of these offices was to provide instruction for union members and their representatives in a variety of labour related areas. These areas included shop steward training, parliamentary procedure, public speaking, collective bargaining, labour history and technological change.

Records consist of the correspondence of various Education Directors, 1956 - 1974; Winter School Literature, 1967- 1974; Labour College of Canada materials, 1963- 1977; education files for various B.C. labour councils, 1956- 1974; and Canadian Labour Congress correspondence, convention materials and circulars, 1970- 1977.
