

GVRFILE

G.V.R.D. PLANNING DEPARTMENT FILES

An Inventory Prepared by

Dawn Smurthwaite
Eva Keskula

17 August 1984

INTRODUCTION

This collection of papers is comprised of files from the Lower Mainland Regional Planning Board (1949-69) and its successor, the Greater Vancouver Regional District Planning Department (1967-84). The time span covered is from 1947 to 1982, with most of the material dated from 1950 to 1980. Most of the material is correspondence. In addition, minutes of meetings, studies, surveys, briefs, discussion papers, reports, plans, maps, graphs and newspaper clippings are included.

The files are contained in file folders in eighty-two boxes. Each file folder is assigned a two-part number, for example, 24-8 (the first part is the box number and the second indicates the folder's position in the box). The files are arranged by subject and by date. The titles of the files, the subject headings and the filing systems adhered to are those of the L.M.R.P.B. and the G.V.R.D. Planning Department.

The inventory has eleven parts. Parts I-VII contain general and office administration files. The general files are subdivided under these headings: General Reference; Comprehensive Planning; Planning Elements; Implementation and Administration; and Statistics, and are also divided by government level: Municipal, Intermunicipal, Provincial and Federal. The office administration files include files dealing with personnel, committees, budgets, payroll, office facilities, etc.

Each of these parts is defined by a time period: the first is dated to and including 1969; the following parts by year to 1977. Part VIII consists of office administration files only. There is no separate part for 1975, but some papers for that year may be found in the other parts. The chronological division of the files is by no means exclusive; there is a good deal of overlapping from year to year.

Parts IX and X contain job files, which are program-oriented. The arrangement of these files is tied to an accounting system. Though files on a particular subject tend to be grouped together, there is still a considerable scattering of subjects throughout. Part IX covers the years 1971 to 1977; Part X contains files for the year 1978.

The last part of the inventory, Part XI, contains additional files. These files are divided into three subject areas: Bowen Island, Noise Control, and the Official Regional Plan Update. They were not assigned any file numbers in the G.V.R.D. Planning Department filing system. To improve access these papers have been sorted into categories, i.e., correspondence, minutes of meetings, studies, reports, etc., according to type of material.

Each entry in the inventory gives the folder number, the date of the material, the assigned title or subject heading, and old file number.

It is important to remember that the amount of material to be found in each folder varies greatly, from a single letter to a collection of reports. Also, the type of information varies and the file title may at times be misleading; for example, a file folder entitled "Annual Report" may contain only correspondence concerning the report and not the report itself. Some cross references were made in the G.V.R.D. Planning Department job file schedules, guiding the user from one file to another containing more information. These have been included in the inventory, i.e. (see also. . .). The number referred to is the old file number.

Part XII added April 188

G.V.R.D PLANNING DEPARTMENT

PART I

Covers years from the establishment of the Lower Mainland Regional Planning Board under the provisions of the Town Planning Act (1949) to the dissolution of the Board in 1969.*

GREATER VANCOUVER REGIONAL DISTRICT PLANNING DEPARTMENT PART XII

(1986 ADDITION)

prepared by Donna Kynaston, April 25, 1988

TABLE OF CONTENTS

INTRODUCTION	67
REPORTS	68
CORRESPONDENCE	68
POLICY DOCUMENTS	68
WORK SHEETS	68
MISCELLANY	69
AUDIO TAPES	69

INTRODUCTION

Part XII of the G.V.R.D. Planning Department records (January 1986 addition) is made up of background papers on the Livable Region Programme, including work sheets used to evaluate the cross-impacts of proposed policies and audio tapes of the sessions used to develop a process for reviewing the Livable Region Programme. There is one 15-cm box of textual material, and 38 cassette tapes. The work sheets have been kept in their original order, and the audio tapes have been put in chronological order.

REPORTS

BOX/Fldr.		DATE
83-1	Transportation for a Livable Region: Report of the Transportation and Transmission Policy Committee to the G.V.R.D.	Oct., 1973
