Attention: Dr. Samia Fadl

Dear Samia:

I have reviewed your proposal, A Contract Proposal for a Health Hazard Analysis of A.U.C.E. - VDT and CRT Operators, dated October 16, 1981. The work to be done as well as the time schedule outlined is satisfactory to us. As agreed with you yesterday, by phone, the general seminar to be given by you and Dr. Thomas Smith, will be held on Thursday, December 10, 1981, from 12:30 to 2:30 in IRC 6.

I would be most productive if the questionnaire you are preparing could be distributed at the December 10th meeting. I know that a number of our members will be present and of course their interest would be highest after the meeting. The room for the meeting holds 240 people.

I am hopeful that the final report for us will be complete before the end of March 1982. Thank you for all the assistance you have given to date.

Yours truly,

Carole Cameron
