

Ausstellung

Hall 9

Invitation

*to the Leipzig
Spring Fair*

1938

6th to 14th of March

Dear Sirs,

As an integral part of the Leipzig Spring Fair 1938 the great exhibition of Machine Tools in Hall 9 will, once more, give you a complete survey of the products of the German Machine Tool Industry.

We should like to call your special attention to this exhibition and hope that you will be able to visit it personally.

The machines will be shown at work, and you will have the opportunity to study their use and their capacity at leisure.

In our booklet "Machine Tools, Engineering Fair Leipzig, Hall 9" you will find valuable details of the various makes. This booklet will be sent you, free of charge, if you will kindly fill in the enclosed post card.

Yours faithfully,

Maschinen-Schau G. m. b. H.

Berlin NW7, Neue Wilhelmstrasse 12-14
