

## AUDIO VISUAL SERVICES PRESENTATION

### OBJECTIVES OF PROJECT

1. To enhance the performance of Audio Visual Services (as a business) through the modification of the organization and operating system.
2. To train and develop staff to optimize the utilization of time and facilities.
3. To provide supervisors and administration with information, which through analysis, will lead to improved control and deployment of resources.
4. To establish cost/recovery relationships upon which customer services can be developed, implemented, and evaluated.
5. To devise and implement an operating system which is understood, used by and is of value to Audio Visual Services.
