AUCE FORCED TO PICKET BANK OF MONTREAL I

Despite attempts to persuade Bank of Montreal officials to lock their inner door of this branch, it has not been done.

In a strike situation, a union may picket the employer and/or the employer's affiliates. In this case, the bank in question provides an entrance to a legally picketed building and is acting on behalf of University management in continuing to ignore our requests.

As an affiliate of the University, this bank is under picket, effectively closing it to those who cannot cross a picket line.

What can be done for those who require service from this bank?

- complain bitterly to the Bank of Montreal complaint department 665-2665; they can easily change their policy.
- Bank of Montreal have a service ('Multi-Branch Banking') which allows a customer to bank at any branch; for convenience, we suggest the Student Union Building Branch. Apply for a MBB card and then go to it.
- If you are sufficiently irritated by the Bank's intransigence, withdraw all your funds as soon as possible. A bank who will not accommodate its customer's requests doesn't deserve your business.
