Ant

Dear Sir,

I beg to enclose herewith resume in statistical form of the comparative trade between Germany and Newfoundland. These figures are for the years 1936,-1937 and 1937-1938 for the periods July 1st. to June 30th. It will be seen that both the imports from Germany and the exports to Germany show substantial increases.

I have also obtained from Messrs. Scheibler & Co. a table of their imports for the calendar years 1937-1938.

I deeply regret that so much time has been occupied in obtaining this information, but I have found it most difficult to get the exact figures, and the present result should, I believe, give you all the information which you asked for such a long time ago.

I should be glad if you would inform the Consulate General at Ottawa of the receipt of this information.

Yours sincerely,

R. S. Furlong
Consul.

W
