# SPECIAL MEMBERSHIP MEETING

THURSDAY MARCH 8

12:30 - 2:30

IRC 6

## Agenda

1. Adoption of the agenda.

2. ELAINE BERNARD

The first hour of this meeting will be given over to a talk by Elaine Bernard on the current problems posed to AUCE and other trade unions by TECHNOLOGICAL CHANGE. Elaine Bernard is presently Program Director for the Labour Studies Program at SFU. She did her graduate work at UBC and SFU. She also works as a consultant to the trade union movement on computers and technological change. Her writings on the social impact of tech change include a book entitled That Long Distance Feeling (New Star Books). She has also taught at the CLC Winter School, and has been asked to sit on the CBC's National Advisory Committee on Science and Technology. The last time Elaine Bernard came and spoke to us the response was overwhelming. The problem of tech change is even more urgent now, with the increasing introduction of new technology on campus, and our up-coming negotiations.

3. Nominations: Grievance Committee  
Contract Committee  
Tech Change Committee  
Communications Committee  
Strike Committee
