Dear Sirs:

We are desirous of returning to Germany a shipment of art silk gloves which were sent to us and were not according to order.

As we are somewhat at a loss to know just what papers will be necessary to have these gloves re-enter Germany, we would appreciate it if you could tell us at an early date whether there are any special customs forms required, and if so, where we might purchase them. Also, if any special clause must appear on the invoices.

Any information which you may give us will be greatly appreciated.

Yours very truly,
