Attention: Dr. Wayne Greene
Director Occupational Health & Safety

Dear Wayne:

Thank you for taking time out of your busy schedule to go through Safety Supply Canadas' line of prescription Safety eye ware.

Attached herewith is the complete list of dispensing locations in the Vancouver and lower mainland area. I have highlited the Prescription Optical locations which include fourteen (14) branches in a variety of geographical locations. These dispensaries are the preferred contact point, as they have the full line of C.S.A. frames in stock.

At these locations, your employees would identify themselves, submit their prescription form, choose their desired frame (C.S.A. only) and be fitted by the dispenser. The average turn-around time would be three to four days, at which time the employee would return, evaluate the glasses (making sure of a proper fit), and then pay the preset price.

If you have any further questions after looking over these two fitting plans, please do not hesitate to contact me at 879-5234.

Yours truly,

G. Rupert
Sales Representative

U.B.C. EMPLOYEE PRESCRIPTION EYEWARE PROGRAM (C.S.A. ONLY)

PLAN 1

- to make all employees aware of the C.S.A. frames available, prices and locations of dispensaries.
- to employees who require prescriptions; make sure their prescription form is filled out in full by an ophthalmologist of their choice.
- to visit a Optical dispensary on the attached list, preferably a Prescription Optical location.
- to identify themselves as a U.B.C. employee.
- to choose the C.S.A. Approved frame of their choice.
- to be fitted and sized at the location.
- to return and pick up the finished glasses and to evaluate for correct sizing and fitting.
- to pay the dispenser the preset price for the finished product.

U.B.C. EMPLOYEE PRESCRIPTION EYEWARE PROGRAM (C.S.A. ONLY)

PLAN 2

- to make all employees aware of the C.S.A. frames available, prices and locations of dispensaries.
- to employees who require prescriptions; make sure their prescription form is filled out in full by an ophthalmologist of their choice.
- to have the department supervisor arrange a time for Roy Olson (Industrial Optical Sales Manager, Imperial Optical) and myself to come out to your location, take the prescription, fit and size your employees **
- to have us return and re-size the glasses and receive payment for glasses.

** We would offer you and your employees this service if we could size and fit a minimum of ten (10) employees per department at once.
