

6/2/75

Calloway Physical Plant called to say prints had been modified on counter in law library.

I called Gary Anderson. He said it wasn't suitable. I suggested a meeting with Calloway, Anderson & myself. Arranged for 19/2. I didn't make it over in time, but saw Gary and he told me she had presented letter on behalf of employees requesting changes. 20th Calloway called me wanting someone in authority to take responsibility. I said I would and explained I thought ~~the~~ staff in law library were not capable of outlining needed changes as they were ones who had to work under those conditions. Calloway had to clear cutting center out of counter with architect. He anticipated resistance.

7/2
Sarah Diamond called re temperature
in Henry Angus, Commerce, asking if
they had right to walk out. I
suggested she call Forke's Compensation.
