Dear Ms. Bice:

Re: Working Conditions

I have tracked down the history of the complaint of Ms. Kay, referred to in your letter of April 3, 1981. To the best of my knowledge the situation referred to in the Cecil Green Coach House has been corrected. In fact, it was part of the correction of the problem which caused Physical Plant to remove the furnace February 9th for repairs.

I am advised that the furnace has now been repaired and that modified maintenance procedures have been developed and implemented by the power plant engineers and it is their view that the repaired furnace and these new procedures have corrected the situation to which you referred.

Yours truly,

R. A. Grant,  
Director.
