Dear Sir:-

With reference to our conversation regarding raw Persian Lamb skins shipped to Messrs. Maranda & Labrecque, of Quebec, I beg to say that raw skins of all kinds are free from any import duty and from sales tax on importation into Germany. No sales tax is levied on such goods if exported. If sold for home consumption, a sales tax of  $\frac{1}{2}$  of 1% is levied.

Trusting that this will clear up all doubts,

I remain,

Yours very truly,

for L. Kempff  
German Consul General.
