Dr. Margaret Fulton, Chairman
Task Force on Micro-Electronics Technology
Mount Saint Vincent University
Halifax, Nova Scotia B3M 2J6

Dear Dr. Fulton:

We understand the Federal Government has established a task force on Micro-Electronics Technology that you will be chairing. Special attention is going to be given to how women may be affected by micro-electronics technology. I represent over 1,400 library and clerical workers at the University of British Columbia, 93% of whom are women. Micro-technology is affecting already the clerical jobs and UBC and will continue to do so in the future.

Please put our name on any mailing list being established to make available the report of the Task Force which is expected to be completed in August of this year. Thank you.

Yours truly,

Carole Cameron
Union representative
AUCE Local 1
