Deutschen General Konsulat  
IN MONTREAL  
DEC 2 1929 ★  
Geb. Nr. *1 Müller*

Dear Sir:

We desire to ship as scrap to Germany Printed Celluloid Pieces which are like the sample enclosed, but are about eight inches long. Would there be any duty against importation of these goods into Germany?

The value of the goods is 8¢ per pound delivered.

Would you kindly also tell us if you can, what railroad, or steamship line would be best to employ when shipping to Hambourg, Germany.

Thanking you, we are

Sincerely yours,

E. PULLAN LIMITED,

INGEGANGEN BEIM  
Deutschen Consul General  
DEC 3 1929  
1 Müller

Dear Sirs:

In reply to your inquiry of November 30th I beg to say that this Consulate General is prevented by existing regulations from giving authentic information on German customs matters. I would suggest that you direct your inquiry accompanied by samples to the Canadian Trade Commissioner, L.D. Wilgress, Hamburg 36, Neurr-Wall 10, who is in a position to obtain complete information from the competent German customs authorities.

Without obligation I would say that celluloid waste is dutyfree in Germany. Whether the material you intend to ship will be classified as waste, is beyond my knowledge. Two German Lines ship out of Montreal to Hamburg, vis:

- 1) North German Lloyd, represented by the Robert Reford Co. 250 Hospital Street, Montreal.
- 2) The Hamburg-America Line, represented by the Canada Steamship Lines, Montreal.

Yours truly,

for L. Kempff  
German Consul General.

S/S
