Montreal, Quebec.

Gentlemen:

On March 28th. we received from Germany  
a shipment of Acetyl Salicylic Acid which we find is  
slightly discolored and unfit for use.

We received authority from Germany to  
return this Acid to them, and we would greatly appreciate  
if you would inform us what documents are necessary in order  
for this merchandise to re-enter Germany.

We would greatly appreciate if you would let  
us know within the next week as we expect by that time to have  
the Acid packed already for shipment.

Yours truly,

THE BAYER COMPANY LIMITED
